Education

Galgotias College of Engineering and Technology, Noida

2024 – 2026

Master of Computer Applications

CGPA: 8.1

CSJMU, Kanpur

2021 – 2024

Bachelor of Computer Applications

CGPA: 8.01

Technical Skills

Languages: C, C++, JavaScript, TypeScript

Core Concepts: Data Structures & Algorithms, OOP

Frontend: React.js, React Native, Next.js, Tailwind CSS, Redux Toolkit, Redux Thunk, Zustand

Backend: Node.js, Express.js, Nest.js

Database: MongoDB, PostgreSQL, SQL, Redis

Tools: Git, GitHub, Postman, Socket.IO, WebRTC, AWS, Render, Vercel, Netlify, Figma, Microsoft Graph API

Experience

Software Developer Intern

March 2026 – July 2026

Codenia Technologies, Noida 

- Worked on **SupplyBase** →, an e-commerce application, developing user and admin applications using **React.js**, **Redux**, **Node.js**, **Express.js**, **MongoDB**, and **Next.js**.
- Implemented e-commerce features including **product management**, **categories**, **orders**, **user management**, and **responsive interfaces** for multiple devices.
- Built an email notification service using **Microsoft Graph API** and integrated RESTful APIs for application functionality.
- Worked on **MyBildr** →, a multi-tenant HRMS application using **React.js**, **Redux**, **Nest.js**, and **PostgreSQL**.
- Implemented HRMS features including **attendance**, **employee management**, **shift scheduling**, and **admin management**, and independently built the complete admin application.
- Worked on **Meyou**, a real-time social/calling mobile application using **React Native**, **TypeScript**, **NestJS**, **Socket.IO**, **WebRTC**, **PostgreSQL**, **Prisma**, and **Redis**.
- Implemented **authentication**, **profile management**, **matchmaking**, **voice/video calling**, **online presence**, **call management**, and **push notifications**.
- Developed **WebRTC-based real-time communication** using Socket.IO signaling and scalable RESTful APIs.
- **Collaborated directly with clients** to understand requirements, provide updates, resolve issues, and deliver features according to business requirements.

Projects

IdeaCraft – E-Commerce Platform

React.js, Redux, Redux Thunk, Node.js, Express.js, MongoDB, Tailwind CSS

User App → — Admin App →

- Built a full-stack e-commerce platform with separate **user and admin applications**, deployed using Vercel and Render.
- Implemented **products**, **categories**, **orders**, **wishlist**, **cart**, **Razorpay payment gateway**, and responsive interfaces for all devices.

TogetherCode – Real-Time Collaborative Coding Platform 

React.js, Node.js, Express.js, Socket.IO, Tailwind CSS

- Developed a real-time collaborative code editor supporting multiple users with synchronized code editing.
- Implemented **Socket.IO** for real-time communication and built a responsive interface; deployed on Render.

Chat Application – Real-Time Messaging Platform 

React.js, Tailwind CSS, Zustand, Node.js, Express.js, Socket.IO, JWT, MongoDB

- Built a real-time one-to-one messaging application with **JWT authentication**, **online/offline indicators**, and **real-time notifications**.
- Implemented **Socket.IO** for instant messaging and Zustand for frontend state management.

Achievements

- Solved **500+ Data Structures and Algorithms problems**.

Certifications

- Data Structures and Algorithms with C++ – Love Babbar (CodeHelp) 
- Web Development Certification – Udemy
- Data Analysis in Python – IIT Kanpur
